

Thrill Seeker

Mountain Climber

Sky Diver

What is it about these types of people that makes us wonder – why would they do that? The answer is simple – it’s the action that is difficult. With every risk they are looking for a reward that will come from nothing else in this physical world. Can you imagine Everest without the climb? What about bull riding without a bull? It’s just not the same.

It’s the same feeling for the entrepreneur. Working for someone else just won’t do. We love the freedom, the action, the feeling of jumping off the cliff without anything under us. Our goal is to fill a void for ourselves and our customers – to build something of meaning and worth – something that gives not just to us but to those who work with us and those we come in contact with.

Wirth Business Credit is about giving our customers the freedom to feel the excitement that they are in business for. We help them explore and create new ways to build their businesses. We show them how to answer questions like

WHAT IF ?

How often have you asked yourself the question, “What if . . .?” We all do it everyday. It is just part of life. What if I had done so and so. What if I had met that person? What if I bought that stock? Second guessing things in life make life what it is, a journey.

Our goal is to help our employees, vendors, and customers answer some of the What if questions about their business.

So, What if money were no object? What would be the one thing you would purchase for your business?
